

LIGHTHOUSE ESTATES

Island Retreat

LAKE CHAMPLAIN, VERMONT

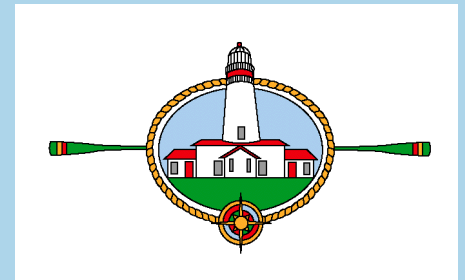

Offering an oasis of elegance in a setting of incredible natural beauty, Lighthouse Estates uniquely combines the privacy and premium comforts of a vacation home with the amenities and personalized services of a resort hotel.

Featuring a distinctive nautical décor, Lighthouse Estates' finely detailed and discreetly situated accommodations are enhanced with everything from deluxe, spa-quality toiletries and fully stocked entertainment centers to latest-edition appliances and catering services.

Laying claim to 80 of the most exquisite acres in the area, Lighthouse Estates' naturally landscaped grounds and high elevations provide an unparalleled vantage point from which to enjoy the splendor of Lake Champlain and the surrounding scenery.

One of the most unique, unforgettable, and undiscovered vacation destinations in New England, the Lake Champlain Islands are "The Hamptons of Vermont." With a remote but accessible location, and seemingly endless meadow, mountain, and water views, this inland "seashore" paradise offers the perfect blend of seclusion and convenience.
