

MARK7 STUDIOS

Real-time, 3D rendering, visualization / animation platform:

- Mark7 Studios and Hollywood Icons Productions HD (HIP HD) *Post-Production/ Editing team* uses advanced Special Visual Effects (SFX) and a **revolutionary, real-time 3D rendering, visualization, animation platform** to provide special services to film, TV, video producers, Media & Advertising agencies, TV Commercials producers and TV broadcasting networks. The above team works with workflow allowing manipulation of cameras, lighting, ambient occlusion, animation, and materials in *real-time*.
- Seamless interoperability with most leading CG software programs including Autodesk **Maya 2011 and 3ds Max. Cinema 4D.**
- The resolution independent, allowing to render at any resolution and format (e.g. 1080P, 720P, 16:9, 4:3, NTSC, PAL and even 2K and beyond).
- Render as final frame, or as passes for additional compositing work.
- Mark7 Studios and Hollywood Icons Productions HD's editing & 3D animation team generates higher quality CGI results for less time and money.
- Mark7 Studios & HIP HD management is partnering AVID in organizing new technology conferences at MARK7 STUDIOS which include new product demos (Maya 2011), 3DS Max and our below console from Avid.
- Mark7 Studios new recording studio "HOLLYWOOD ICONS MUSIC Recording Studio" includes new, powerful Genelec 1035 loudspeaker system and latest music production & editing console: ICON DigiDesign D-Control ES 32 (from AVID),
The above 3D platform is not available for rentals, but available for qualified co-productions or HIP HD's productions & services. The newly built state-of-the-art recording studio, equipment (including below console from AVID) and services will be available for rentals for qualified clients. For 3D platform requests or above rentals requests send e-mail to: atcny1234@hotmail.com, anton@mark7studios.com, tel: (646) 575-1144, <http://wwwmark7studios.com>
