The Annual dinner for the Skin Sense Awards Gala, held at the Pierre Hotel honored select members in the cosmetics, pharmaceutical and publishing industries for their role in helping to educate the public about the dangers of skin cancer and the importance of sun protection. All Proceeds from the Gala are used to expand the Skin Cancer Foundation's public awareness programs.

Colleen Goggins and John & Johnson Consumer Companies, Inc. were honored for their role in creating protective products that help prevent skin cancer and photoaging. The Foundation honored Valerie Monroe, Beauty Director of O, The Oprah Magazine for her coverage and promotion of skin health. For more information please visit: www.skincancer.org

The Jeffrey Modell Foundation

Dr. Fred Alt, Vicki Modell, Fred Modell, Dr. Joseph Martin, Dr. Jeffrey Flier and Dr. Frank Austin.

Founders Vicki and Fred Modell of the Jeffrey Modell Foundation, established in 1987 in memory of their son, Jeffrey, who died at the age of 15 from complications of Primary Immunodeficiency (PI), hosted a special dinner at the Harvard Club and ribbon-cutting ceremony to celebrate the opening of the Jeffrey Modell Immunology Center at Harvard Medical School.

To commemorate this monumental achievement, JMF hosted a series of events including the second symposium of the Robert A. Good Immunology Society with 30 of the world's leading immunologists speaking, a ribbon-cutting ceremony at the Jeffrey Modell Immunology Center, and a tour of the new Robert A. Good Library and the Fred S. Rosen Lecture hall to honor their roles as founding fathers of modern immunology. The day concluded with a private dinner at the Harvard Club, featuring an incredible performance by the famed Boston Children's Chorus followed by a special address from D. Holmes Morton, M.D., Founder of the Clinic for Special Children, located in the Amish countryside in Lancaster, Pennsylvania. For more information please visit: www.info-4pi.org
