## What is my insurable interest?

Your insurable interest is the total face amount of Life insurance you are eligible to possess based on your age, health and total net worth.

## How do I cash in on my insurable interest?

Just apply for a universal life insurance policy with a face value of \$2 million or more through Platinum Legacy. Platinum Legacy will arrange all of the financing to keep that policy in force for up to 2 years absolutely risk free. Platinum Legacy will convert that policy into cash amounting to 3%-5% of the face value for you to do with as you wish.

## Why is my Life Insurance Policy able to generate so much cash value during my lifetime?

Deutsche Bank, Credit Suisse and Warren Buffet of Berkshire-Hathaway are the largest investors in this fast growing asset class. These and other large financial institu-

tions like AIG have discovered that the purchase of these policies from people with the above criteria are a great investment. As such, these financial institutions will actually bid against each other to purchase these policies for substantially more than the amount used to pay the premiums. This sale results in a substantial profit for you. Platinum Legacy will assume all risk regarding the sale of your policy making your transaction 100% risk free. All information obtained in the insurance application process is strictly confidential by law.

Here is how 3 people benefited from the Platinum Legacy senior life settlement program.
